- New generation touchless solution for the people to access control on the entrance or record time attendance and simultaneously check mask-wearing without having to touch a terminal or gate.
- Built-in IR and visual cameras integrated with Anviz's unique BioNANO[®] algorithm to produce the best in class live face recognition performance.
- Equipped with a 5" IPS touch screen.
- Register up to 10,000 users for dynamic face authentication.
- Recognition distance up to 1.5 M with matching speed < 0.3s by 1: 10,000.
- Optional battery backup, specifically designed to work consistently in unstable power supply environments, such as construction sites, manufacturing, schools and buildings in countryside, etc.
